THE DOWNLOAD

- 7 Apple's controversial tree farms; four essential charts on AI and energy; the Great Salt Lake gets less great; Job titles of the future: Pandemic oracle. Plus books, reader mail, and *Glorious Exploits*.

PROFILE

- 18 **AI in the town square**
New technologies can help close the gaps between the government and the public. But they're not without risks. By Benjamin Schneider

Power

22 Handing AI the keys

We're starting to give real autonomy to AI agents—artificial-intelligence systems that can interact with the world. What could go wrong? BY GRACE HUCKINS

28 Our electric future

Nationally, the race is on to power data centers. But as Lincoln, Nebraska, demonstrates, it's local utilities that carry the freight of the energy transition.

BY ANDREW BLUM

36 Can Namibia build the world's first hydrogen economy?

The vast and sparsely populated country is looking to translate its potential for wind and solar power into national development.

BY JONATHAN W. ROSEN

46 Powerless in Puerto Rico

The island is staring down a dirtier, and potentially darker, future—with little say over what happens.

BY ALEXANDER C. KAUFMAN

Back

56 Book review: OpenAI

New books by Karen Hao and Keach Hagey focus on how much the AI revolution has been driven by Sam Altman and his company. By Mat Honan

60 Book review:

Crass surveillance

A trio of books examine the rise of the American surveillance state and its infiltration into higher education. By Bryan Gardiner

64 Q&A: Power trip

Tech titans say they want to save humanity. In his new book, astrophysicist and journalist Adam Becker reveals that their fantastical visions conceal a much darker agenda. By Bryan Gardiner

70 Find the others

How a '90s techno-thriller predicted our digital isolation. By Tom Humberstone

74 When tech is turned against you

From remote-controlled smart cars to menacing Netflix messages, tech-facilitated abuse is keeping up with the times. By Jessica Klein

80 Field notes:

The anthropocene illusion

Zed Nelson's photographs capture how a consoling vision of nature has been packaged as a curated experience. By Allison Arieff

88 The AI Hype Index

Our highly subjective take on the latest buzz in artificial intelligence.
